WORK EXPERIENCE

⊙ Senior Software Developer

Lyanthe

October 2018 - Present

Within 8 months of working, I was promoted to be a Senior Developer. I lead the team of backend developers and able to focus developing new APIs. I handle the communication between 3rd party softwares and us. I work also to create solutions and able to give a planning for our new version of API. I am one of the trusted people who lead the new project (Banking System).

Technologies used:

(C#) (.NET Core) (.NET Web) (Identity Server) (SQL) (Restful API) (Postman)

⊙ Software Developer

Lyanthe

November 2017 - October 2018

I worked with different softwares the our company has to cater and help customer. Develop different jobs to sync in our data from each cluster of database. I communicate every project we make from any third party available. Working also with a team coming from Netherlands and Belgium.
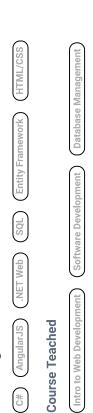

Technologies used:

C# | AngularJS | .NET Web | .NET Console for Jobs | SQL | HTML/CSS | Restful API

○ **Software Developer / Instructor**   **LEAN PH**

May - October 2017

Working in a startup company within short-period of time, I can say I learned so much. Grinding from long hours of work and giving patience to it. I modified existing software to detect and correct errors, improve performance, and upgrade interfaces. I also teach different person who admires and love to learn programming.

Technologies used:

C# | AngularJS | .NET Web | SQL | Entity Framework | HTML/CSS
